Transfer of Southern Pacific Stock to Pennsylvania Line Would Not

Suppress Competition.

C., June 14.—Attorney general McReynolds returned to Washington today and immediately began considering the proposal of the Union Facific Railroad company, made to the United States court at St. Paul, to exchange \$15,906,000 of Southern Pacific stock for the Pennsylvania railroad holdings of Baltimore and Ohlo.

Such an arrangement, incidental to the dissolution of the Union Facific merger, the attorney general said, did not, on the surface, present a situation to which the government could not object, but he was studying the interrelation of the roads and seeking advices to determine finally whether the transfer could be regarded as obnex-Suppress Competition.

With the present holdings of the Union Pacific in Baltimore and Ohio, the proposed transfer would give to the Union Pacific 38.2 per cent of the entire outstanding stock of Baltimore and Ohio, acording to the attorney general's advices. This would consist in round numbers of \$28,000,000 preferred stock or \$7 percent of the whole, and \$33,000,000 of common stock or 35 percent of the whole.

By acquiring \$38,000,000 of Southern Pacific stock, the Pennsylvania would receive 14 percent of the entire ontstanding suck of the Southern Pacific So far the attorney general has not found any indication that competition would be suppressed as the proposed consolidation seems to relate to continuous and not parallel railroad lines.
